Summary

Computer Science undergraduate with strong foundations in Java and Frontend Web Development. Skilled in building responsive web applications using HTML, CSS, and JavaScript, and developing efficient solutions using object-oriented programming in Java. Familiar with REST APIs and problem-solving, with a strong interest in software engineering and scalable application development.

Education

C.V. Raman Global University **Aug. 2023 – Present (Expected Graduation: 2027)**
B.Tech in Computer Science and Information Technology (CGPA: 8.64) *Bhubaneswar, Odisha*

St. Paul's School
ICSE (Class XII) – 2022 (66.6%) *Rourkela, Odisha*
ICSE (Class X) – 2020 (89.5%) *Rourkela, Odisha*

Projects

Weather Application | HTML, CSS, JavaScript, REST API

- Developed a real-time weather application using external API integration to fetch live weather data.
- Implemented dynamic UI updates using DOM manipulation to display temperature, location, and weather conditions.
- Added location-based search functionality and responsive design for cross-device compatibility.
- Optimized user experience with clean interface and real-time data rendering.

Tic Tac Toe Game | HTML, CSS, JavaScript

- Built an interactive browser-based game with win, draw, and turn-based logic using JavaScript.
- Implemented event handling and game state management for seamless gameplay.
- Designed responsive and user-friendly interface using HTML and CSS.
- Enhanced user experience with instant result detection and restart functionality.

Quiz Application (Dynamic) | HTML, CSS, JavaScript

- Developed a dynamic quiz application supporting multiple questions and real-time score calculation.
- Implemented timer-based question handling and progress tracking using JavaScript.
- Designed interactive UI with question navigation, restart functionality, and result display.
- Utilized local storage to store user scores and improve user engagement.

Technical Skills

Languages: Java, JavaScript, HTML, CSS
Developer Tools: VS Code, Git, GitHub
Technologies/Frameworks: Responsive Web Design, DOM Manipulation, OOP Concepts (Java)

Relevant Coursework

- Data Structures
- OOPs (JAVA)
- Artificial Intelligence
- Database Management
- Web Development
- Operating System

Achievements & Certifications

- Web Development Fundamentals — IBM SkillsBuild
- GenAI Powered Data Analytics Job Simulation — Forage
- Technology Job Simulation — Deloitte (Forage)
